Operating and financial review

The net profit / (loss) of the Club for the year ended 31 October 2014 was \$1,062,082 (2013: \$62,533).

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 OCTOBER 2014**

The financial report for GCFC Ltd (“the Club”), a not-for-profit entity, is for the year ended 31 October 2014 and the financial report was authorised for issue by the Board of Directors on 27 January 2015.

1 Statement of significant accounting policies

(a) Statement of compliance

The financial statements of the Club are Tier 2 general purpose financial statements which have been prepared in accordance with Australian Accounting Standards – Reduced Disclosure Requirements (‘AASB-RDRs’) (including Australian Interpretations) adopted by the Australian Accounting Standards Board (‘AASB’) and the Corporations Act 2001.

(b) Basis of preparation

The financial report is presented in Australian dollars and on the historical cost basis.

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. These accounting policies have been consistently applied by the Club.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of Australian Accounting Standards that have significant effect on the financial report and estimates with a significant risk of material adjustment in the next year are disclosed in the following note:

- Note 6 – Trade and other receivables (impairment losses)

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 OCTOBER 2014**

1 Statement of significant accounting policies (continued)

(b) Basis of preparation (continued)

The following standards have been identified as ones which may impact the Club in the period of initial application. They are available for early adoption at 31 October 2014, but have not been applied in preparing this financial report:

AASB 9 Financial Instruments (2010), AASB 9 Financial Instruments (2009)

AASB 9 (2009) introduces new requirements for the classification and measurement of financial assets. Under AASB 9 (2009), financial assets are classified and measured based on the business model in which they are held and the characteristics of their contractual cash flows and introduces additions relating to financial liabilities. The Club has not yet determined the potential impact on the financial statements.

The accounting policies set out below have been applied consistently to all period presented in the financial report.

Changes in accounting policies

Except for the changes below, the Company has consistently applied the accounting policies set out in Note 1 to all periods in the financial statements.

The Company has adopted the following new standards and amendments to standards, including any consequential amendments to other standards, with a date of initial application of 1 November 2013.

a. AASB 13 *Fair Value Measurement*

b. AASB 119 *Employee Benefits (2011)*

Adopting the new standards and amendments has not resulted in any material changes to the Company's financial statements.

(c) Revenue recognition

Revenues are recognised at fair value of the consideration received net of the amount of goods and services tax (GST) payable to the taxation authority. Exchanges of goods or services of the same nature and value without any cash consideration are not recognised as revenues. Exchanges of goods or services that are not of the same nature are recognised as revenue at the notional fair value of the goods or services.

Trading Operations

Sales revenue comprises revenue earned (net of returns, discounts and allowances) for the provision of products or services to entities outside the Club. Sales revenue is recognised within the period to which it contractually relates or when the fee in respect of services provided is receivable.

Interest Revenue

Interest income is recognised as it accrues, taking into account the effective yield of the financial asset.

AFL Grants

AFL grants are recognised as revenue in the income statement in accordance with the period to which the AFL funding agreement relates.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 OCTOBER 2014**

1 Statement of significant accounting policies (continued)

(c) Revenue recognition (continued)

Sponsorship & Supply Rights Revenue

Sponsorship revenue is recognised within the period to which it contractually relates or when the fee in respect of services provided is receivable.

Deferred Income

Deferred income is initially recognised at fair value. Deferred income is recognised in the profit or loss as income on a systematic basis in the same period in which the expenses are recognised or the accounting period to which the income relates to.

Membership Income

Membership income is recognised in the period to which the membership relates.

(d) Goods and services tax

Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated with the amount of GST included. The amount of GST recoverable from and payable to, the Australian Taxation Office ("ATO") is included as a current asset and liability in the Statement of Financial Position.

Cash flows are included in the statement of cash flows on a gross basis. The GST components of cash flows arising from investing and financing activities that are recoverable from, or payable to, the ATO are classified as operating cash flows.

(e) Taxation

The Club is exempt from income tax under Section 50-45 of the Income Tax Assessment Act 1997 as amended, as the activities are solely the promotion, administration and development of Australian Rules Football.

(f) Receivables

Trade and other receivables are stated at their amortised cost less any impairment loss.

(g) Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Subsequent costs

The cost of replacing a component of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Club, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 OCTOBER 2014**

1 Statement of significant accounting policies (continued)

(g) Property, plant and equipment (continued)

Depreciation and amortisation

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed and if a component has a useful life that is different from the remainder of that asset, that component is depreciated separately.

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Club will obtain ownership by the end of the lease term. Land is not depreciated.

The depreciation rates used for each class of asset, for the current and prior financial period are as follows:

Straight line method

Plant and equipment	10% to 20%
Furniture and fittings	10%
Leasehold Improvements	5% to 10%

(h) Trade and Other Payables

Liabilities are recognised for amounts to be paid in the future for goods or services received. Trade accounts payable are normally settled within 30 days.

(i) Contributed equity / retained earnings

The Club is a company limited by guarantee to the extent of \$2.00 for each member. As at 31 October 2014, there was 1 voting member.

The Memorandum of Association prevents the distribution of retained profits or payment of dividends to members.

(j) Employee benefits

Wages, salaries, annual leave and non-monetary benefits

Short-term employee benefits

Short-term benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the club has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Other long term employee benefits

The Club's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognised in profit & loss in the period in which they arise.

Defined Contribution Superannuation fund

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 OCTOBER 2014**

1 Statement of significant accounting policies (continued)

(k) Impairment

(i) *Non-derivative financial assets*

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets (including equity securities) are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Club on terms that the Club would not consider otherwise, indications that a debtor or issuer will enter bankruptcy, the disappearance of an active market for a security. In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

Loans and receivables

The Club considers evidence of impairment for receivables.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in profit or loss and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

(ii) *Non-financial assets*

The carrying amounts of the Club's non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit (CGU) exceeds its estimated recoverable amount.

The recoverable amount of an asset or CGU unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGU.

The Club's corporate assets do not generate separate cash inflows and are utilised by more than one CGU. Corporate assets are allocated to CGUs on a reasonable and consistent basis and tested for impairment as part of the testing of the CGU to which the corporate asset is allocated.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU (or group of CGUs), and then to reduce the carrying amounts of the other assets in the CGU (or group of CGUs) on a pro rata basis.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

I Statement of significant accounting policies (continued)

(l) Inventory

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the first-in first-out principle, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

(m) Leases

Leases in terms of which the Club assumes substantially all the risks and rewards of ownership are classified as finance leases. Upon initial recognition the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

Other leases are operating leases and are not recognised in the Club's statement of financial position.

(n) Provisions

A provision is recognised if, as a result of a past event, the Club has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as a finance cost.
